D FRAME FOUNDATION

Date – 31 March 2024

Experience Certificate

This certificate is to confirm that **Mohammad Ayaan Siddiqui** joined **D Frame Foundation** in December 2022 as a **Founding Team Member and Web3 Front-End Developer Intern**. He served in this capacity till **June 2023**. Recognizing his **skills, dedication and contributions**, he was promoted to the role of one of the **Technical Co-Founder** and **Full Stack Blockchain Developer** in July 2023, a position he continues to hold till March 2024.

D Frame Foundation is a **WEB3 data monetization** startup based in the Netherlands. We are working on **Universal Basic Income (UBI)** solutions using blockchain technology. D Frame is also developing a **layer-1** data-based **blockchain network**, and we're pleased to announce that our **alpha release** is live on our **website**.

As an intern, Mr. Siddiqui worked with **React JS** for **User Interface development**, handling tasks like **REST APIs** integration, **Metamask** integration, and **web3.js** integration in frontend.

After being promoted to **Full Stack Blockchain Developer**, Mr. Siddiqui took on more responsibilities. He successfully managed the **migration from AWS to GCP**, played a key role in creating a **foundational Data Pipeline**, contributed to **Chrome extension development**, and handled **backend development** and **testing**. He also managed **Google Cloud platform** operations.

Throughout his tenure at D Frame, Mr. Siddiqui consistently demonstrated his ability to **adapt to changing technology landscapes**. He navigated various tech stacks, including **web3.js**, **front-end**, **back-end**, **data pipeline**, **cloud computing**, and **blockchain**. This growth led to his **progression** from **an intern** to a **Full Stack Blockchain Developer**.

Sincerely,

Rishabh Kapoor
